ALERT HISTORY

LOW BATTERY ALERT: Alerts you when your battery is below a set voltage. Click on “LOW BATTERY” tab and then press the “+” icon to add your alert. Enter the name of your vehicle, for example, “KIDS TOYOTA CAMRY”. Again the GROUP will be your name, then enter the volts you wish to be alerted at, typically 11, then press “SAVE CHANGES”. Once completed, you will need to set up recipients for this alert if you haven’t already done so.

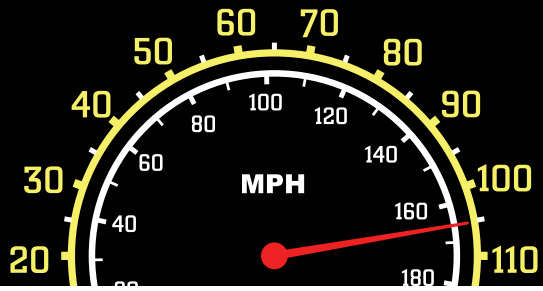

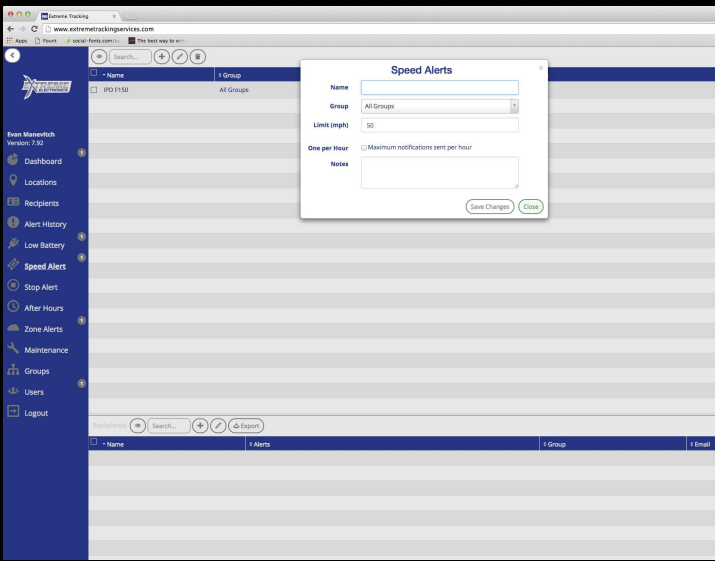

LOW BATTERY ALERT:

SPEED ALERT: Alerts you when your vehicle exceeds a preset speed limit.

Click the “SPEED ALERT” tab and then the “+” icon to create a new speed alert. Name the vehicle, for example, “KIDS TOYOTA CAMRY”, the group again will be your name. Enter the desired speed for the alert, for example 70. Under “ONE PER HOUR” you can click maximum number of notifications if you wish to receive “ALL” speed alerts for that vehicle in that time period.

You will now have to assign recipients for the speed alert if you haven't already done so.

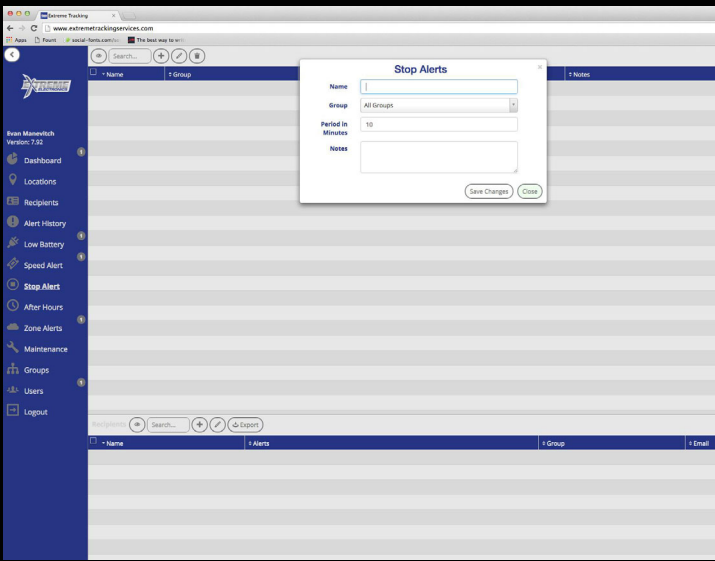

SPEED ALERT:

STOP ALERT: Allows you to monitor stop time.

Click on “STOP ALERT” and then the “+” icon to create the alert. Enter the name of the vehicle and then the maximum time you would like the vehicle to be at any one location.

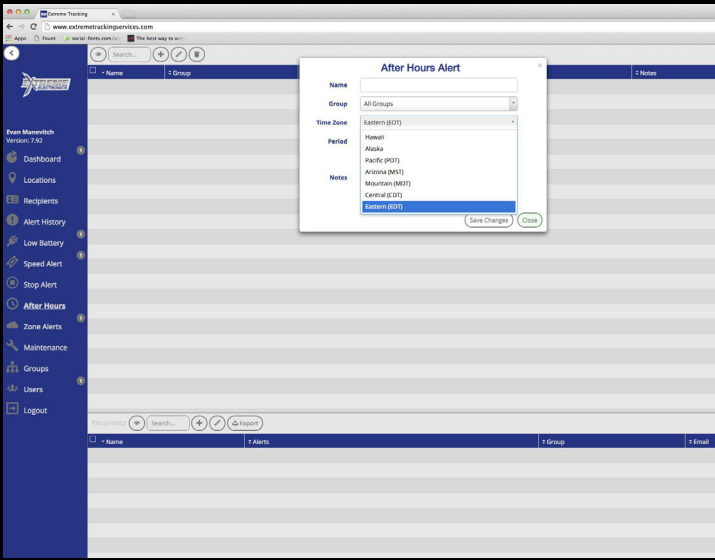

STOP ALERT:

AFTER HOURS: Arms your vehicle or vehicles for a period of time that you choose.

Click on “AFTER HOURS” tab and then the “+” icon to create the alert. Name the alert, for example, “KIDS TOYOTA CAMRY”. Again the group will be your name. Choose the appropriate time zone and then customize your period. For example, 11:00 pm for 9 hours only on weekdays. This will alert you when the vehicle moves during the overnight hours. You can customize this for each day of the week or weekend. You can have unlimited alerts set for each vehicle.

You will need to set up recipients if you haven’t already done so.

AFTER HOURS ALERT

ZONE ALERTS/GEO-FENCE:

Allows you to create "ZONES" or areas that the selected vehicle can not exit or enter.

Click on "ZONE ALERT" and then the "+" icon to create a new zone. Name the zone, for example, "KIDS TOYOTA CAMRY, HOME", again the group will be your name. Under "TYPE" you can choose only enter, or exit or both. Which is when you will be notified of a ZONE violation. Address, color and ICON are all options you can use to identify your zones.

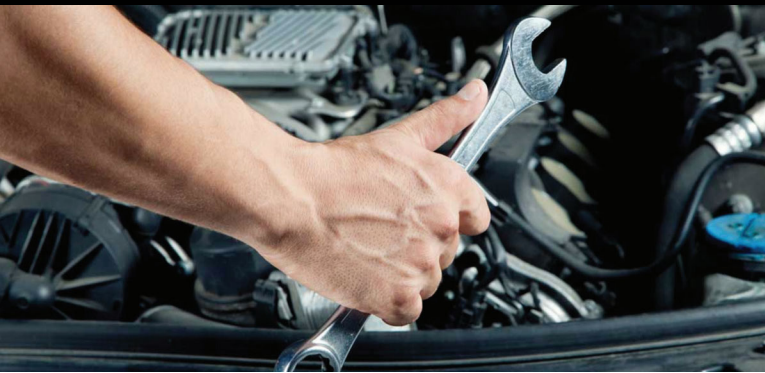

Under ZONES, type in the address you wish to ZONE and click "CENTER ON MAP". At this point, you can zoom in to street level to set your geo fence. Clicking the Satellite tab will aid in finding streets and or your house. Once you have located your home, simply click the screen and an ICON will appear, click it again and another icon appears. You can see the zone take shape as you add more ICONS. To adjust the zone, simply grab an icon and drag to a new location.

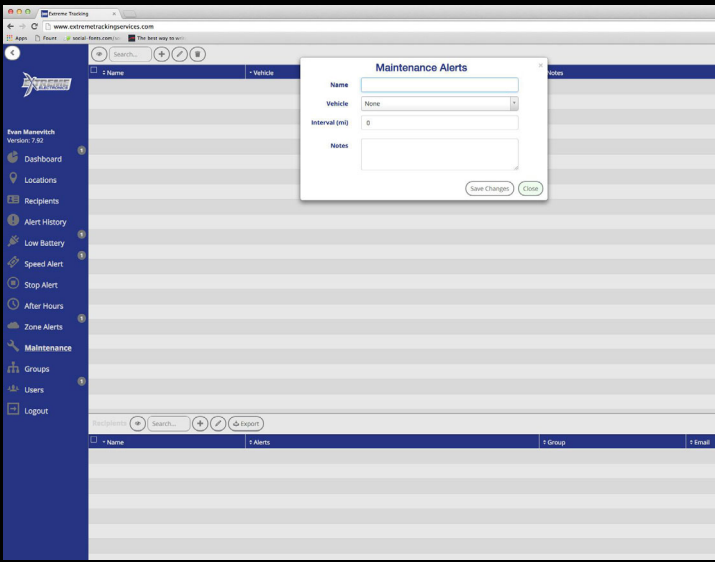

Remember to choose the appropriate time zone. Under "VALID", you can customize when the ZONE is active. You can set unlimited zones, office, school, malls, friends houses, areas etc.

MAINTENANCE: Allows you to create a group for your vehicle (s).

Click on “MAINTENANCE” tab and then press the “+” icon, enter the name of the alert, for example, OIL CHANGE then select the vehicle by clicking the down box. For example, KIDS TOYOTA CAMRY. Enter the mileage interval and any notes you would like to add, and then save changes.

You will need to assign recipients if you haven't already done so.

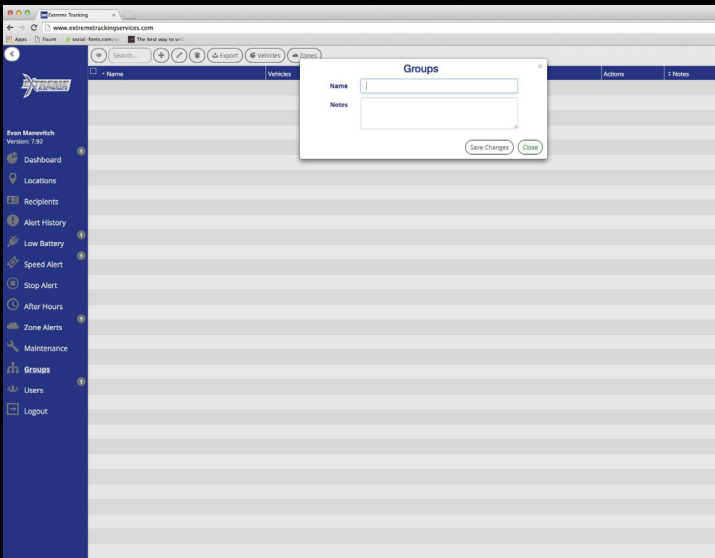

MAINTAINANCE ALERTS

GROUPS: Allows you to create a group for your vehicle (s).

Click on the “GROUP” tab and then press the “+” icon. Name the group, for example, kids vehicles or lease vehicle or golf cart. This allows you to separate your vehicles and give access to specific family members for alerts

GROUPS

USERS: Click on the “GROUP” tab and then press the “+” icon. Name the group, for example, kids vehicles or lease vehicle or golf cart. This allows you to separate your vehicles and give access to specific family members for alerts.

Click on users tab, then the + icon to create new user. Enter the name of the user, the group you wish them to receive alerts and complete the login information. Save changes.

Note: **“Is Master”** should only be checked for those who will have the ability to create users.

OTHER FEATURES: Customize your dash board with the information YOU want to see when you log in. Click on the “EYE” icon and a list of items appear, simply click the items you wish to view on your dashboard and that’s it.

ICON tab on the dashboard. Click on this, and you can customize the icon that represents your vehicle on the map or grid.

Activity Status. You can click this graph for greater than a month, less than a month or recent and a map appears with all the locations of the vehicle for that time.

Phone app. To down load your phone app, go to safari or google on your smart phone. Type in www.tegtracking.com and click, “INSTALL APP”. This will give you an icon on your phone for quick access to your GPS Tracking device. Note: you can not create GEO FENCE/ZONES from your phone, this is done from the desk top application.
